“To make individuals and organizations more effective by **providing practical guidance, content and qualifications** distilled from **real world experience and developing practices.**”

INTRODUCTIONS & GROUND RULES

- Self-organise into teams
- 15 minutes to prepare a presentation to give to the other teams
- Present your team members
 - Minimum – name, role, company, course expectations, something “interesting”
- Agree and rank 3 suggested ground rules
- And, what does the word “SHIFT” mean to you?
- Present your team, ground rules and definitions (guide - no more than 1 minute per person)
 - Can you think of an innovative way to share? 😊

UNDERSTANDING SOME TERMINOLOGY

- Self-organise into teams
- List 3 terms that you would be interested in understanding and defining
- 10 minutes

(including value, disruptor, agile, Agile, transformation, co-creation, benefit, etc)

A CHANGING CONTEXT

BEFORE WE BEGIN...

What is “value”?

Value = the benefits delivered in proportion to the resources put into acquiring them

WE'RE ENTERING A NEW ERA

- We're leaving the Industrial Age
- This is probably the "Network Age" ...
- ... or it might be the "Social Age"
- The rise of new technologies
- Importance of customer experience and what value means

A 'VUCA' WORLD

The dynamic and fast moving nature of the world today:

- Volatility
- Uncertainty
- Complexity
- Ambiguity

THE INCREASING ROLE OF TECHNOLOGY

Technology brings change.

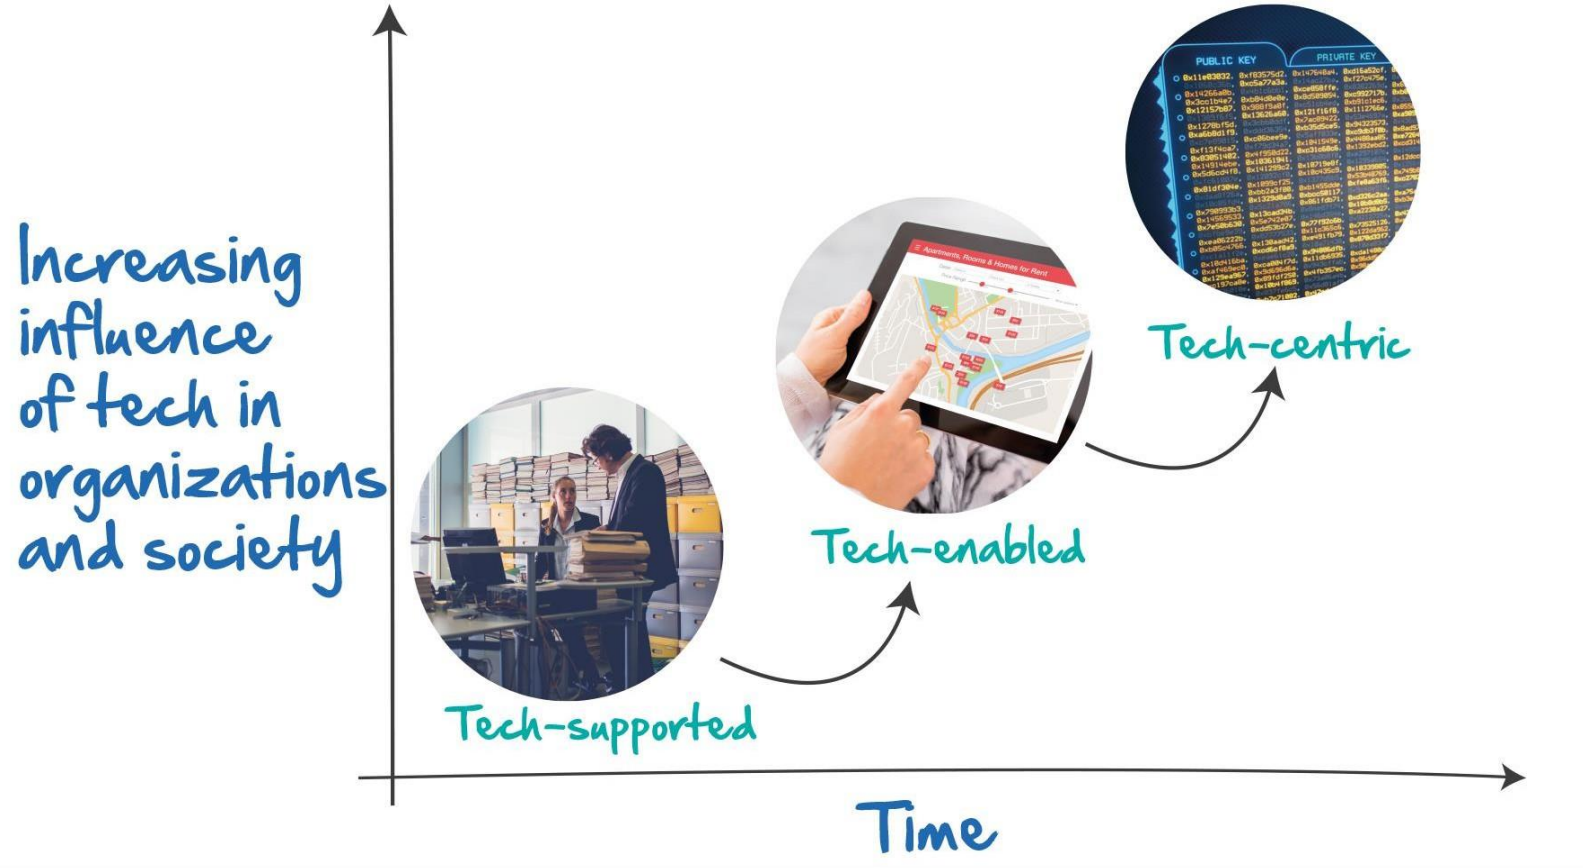

Have you experienced tech-driven change?

Work in teams to list 5 changes you have noticed at work or home that are driven by technology.

Time: 10 mins.

TECH SHIFT

THE POWER OF DISRUPTORS

- Current and new market participants seek to change the established “**knowns**” and “**norms**” of a sector
- Every incumbent operator is under threat
- Disruptors focus on bringing innovation to all environments

Disruptor defined: “an entity that changes the way an industry or sector operates, especially in a new, more effective and unexpected way. They may create a market where none existed before”

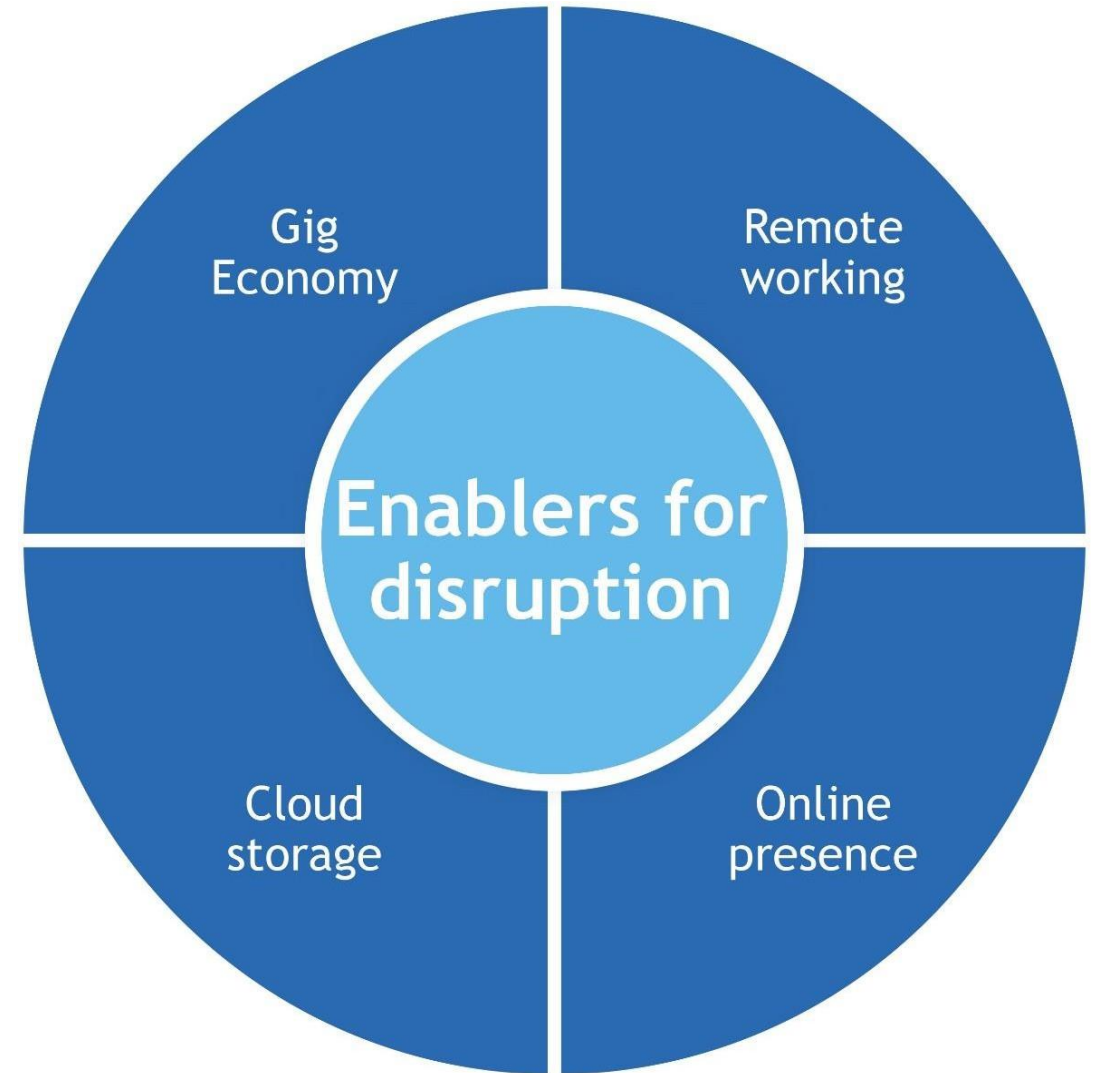

DISRUPTORS ARE ENABLED

Factors that enable disruption include:

- “Gig economy” – a flexible labour market
- Remote working - globally distributed teams
- Cloud storage and processing power
- Online presence: reviews and testimonials replace value of physical assets, reputation and history to customers

These tech-driven factors are changing the competitive landscape

BLACK SWAN EVENTS

- A totally unexpected and unpredictable event
- Cannot be forecast, but should be prepared for
- Major impact and could lead to disruption
